Tim Baker, Director

# **OIL & GAS CONSERVATION DIVISION**

November 3, 2017

Backyard Energy Services Conor O'Reily 1601 NW Expressway Suite 1450 Oklahoma City, OK 73118

Re: Backyard Energy Services, Oil Based Drill Cuttings Treatment Process Approval of Pilot Project State of Oklahoma.

Dear Mr. O'Reilly,

The Pollution Abatement Department has reviewed the documentation and analyses furnished to us by Backyard energy services, LLC (Backyard) in support of a commercial non-deleterious facility (Facility), filed in Cause P.D. No. 201700132, requesting statewide authority.

It's our understanding that Backyard has an agreement with Newfield Exploration Co. to furnish oil based drill cuttings (Drill Cuttings) for processing into a material that will be used for construction of the companies' drill sites. As a result of our review and technical meetings with Backyard representatives, you will have the ability to recycle/process the operator's drill cuttings for use for construction of the drill sites, until January 31<sup>st</sup>, 2018, or until a final Commission order issues. Prior to using the processed material for construction, Backyard will provide the Pollution Abatement Department with the analyses of the processed material to be used, demonstrating it complies with the Target Limits set forth in the Amended Application in Cause PD No. 201700132. Backyard will also furnish the legal location and amount of processed material to be used for the construction of each drill site prior to commencement of construction. Once the construction has been completed, Backyard will prepare a post summary report. Records of the amount of incoming drill cuttings and the amount of outgoing processed material will be kept, as well as dates and the origin of the drill cuttings and the final destination. Such records will be made available to Commission staff upon request. This Facility will not be considered a commercial recycling facility for the purpose of this pilot project. If the project is to continue after January 31st, 2018, a reevaluation may be required by the Pollution Abatement Department in order to determine if additional authorization may be granted by the Commission. If operations at the facility are terminated prior to January 31st, 2018, the Pollution Abatement department shall be notified immediately.

If there are any questions, please feel free to contact me at 405-521-2240.

Sincerely,

Tim Baker

Oklahoma Corporation Commission Tim Baker, Director of the Oil and Gas Conservation Division 2101 N. Lincoln Blvd Oklahoma City, Oklahoma 73105

RE: Cause PD. No. 201700132, Backyard Energy Services, LLC Oil Based Drill Cuttings Treatment Pilot Project, State of Oklahoma

Dear Mr. Baker:

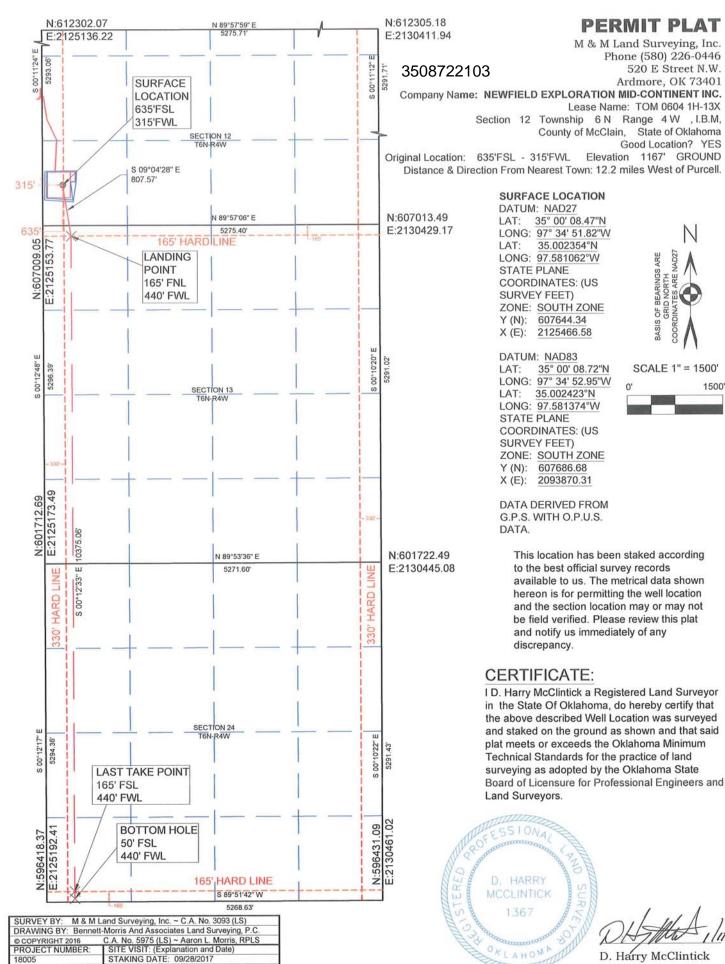

Please be advised that Newfield Exploration Mid-Con, Inc. (Newfield) understands and agrees it will be the sole operator under a Commission pilot project which will allow Backyard Energy Services, LLC to process Newfield's oil based drill cuttings using the process and requirements outlined in the amended application filed in Cause PD No. 201700132. The results of the processing will be a material that will be used in the construction of Newfield's drill sites.

Newfield further understands the initial pilot project will be for a period of ninety (90) days, or until such time as an order issues if the above referenced cause.

If there are further questions, please do not hesitate to contact Evelyn Smith at (281)674-2521.

Sincerely,

Matt Cooley Drilling Manager
